The Forno Bravo Giardino Series makes it easy to install an authentic, custom pizza oven in a small space — at a price a lot lower than you might have thought. Fabricated using the same high quality refractory and insulating materials as commercial pizza ovens and larger residential ovens, the Giardino ovens offer the optimal balance between size/weight and cooking capacity. These wonderful ovens can be quickly assembled, while still allowing a homeowner or builder to create a fully customized stand and enclosure.

Like the popular Forno Bravo Primavera and Andiamo assembled pizza ovens that use the Giardino oven core, the Giardino Series offers the industry’s fastest heat-up times (as fast as 20 minutes) and remarkably good heat retention – perfect for pizza making, hearth bread baking, roasting and grilling. Don’t let their smaller footprint fool you: the Giardino Series ovens pack a huge amount of wood-fired cooking in a small, affordable package.
GIARDINO SERIES

Modular Refractory Pizza Oven Kits
A Custom Wood-Fired Oven Made Easy

The ovens are available in two sizes: 24” and 28” rounds, with a 6” landing, and include everything you need to assemble a complete oven core, including the oven dome and vent, floor, insulation, chimney, door and thermometer. Building a wood-fired oven has never been so easy.

Like all Forno Bravo ovens, the Giardino Series features four unique technologies:

1. The Giardino 1½” oven dome is produced using a proprietary 142 pcf density, 8,230 psi strength refractory material and a two-sided, vibrated mold casting process – the same material and process we use for our commercial ovens. It is a remarkably hard and durable material that is superior to old-fashioned clay ovens.

2. The Giardino 1½” oven floor is constructed using 12”x12”x1½” commercial-grade (2,700psi compressed and 2650ºF kiln-fired) baking tiles with Cordierite – for superior thermal shock resistance and better baking.

3. Each Giardino oven is delivered with complete insulation for outstanding heat retention, and includes 3” of high-tech ceramic blanket dome insulation and 2” of ceramic board floor insulation – eliminating the need for old-fashioned and inefficient vermiculite or Perlite. This is the same volume and quality of insulation that we use in the larger and heavier Casa2G ovens.

4. The Giardino Series features a monoblock dome with an integral vent, making assembly easy – there are no seams to line up or mortar together.

The Giardino ovens can be installed either on a site-built concrete block stand, or a Forno Bravo metal oven stand. A decorative brick arch and oven tools are available as options.

Giardino Series ADVANTAGES

1. MONOBLOCK DOME
   Single piece oven dome for easier assembly and better heat retention.

2. DOME INSULATION
   3 x 1” ceramic dome insulation for easy assembly and outstanding heat retention.

3. REFRACTORY CASTING
   1 1/2” thick, 142 pcf, 8,230 psi strength, two-side vibrated form refractory dome for faster heat up and excellent durability.

4. COOKING FLOOR
   Compressed (2,700psi), kiln fired (2,650ºF) 12”x12”x1 1/2” floor tiles have fewer seams, are more durable, and bake perfect Pizza Napoletana.

5. FLOOR INSULATION
   1 x 2” ceramic board floor insulation for easy assembly and excellent heat retention.

6. ENCLOSED COOKING FLOOR
   The dome wraps around the floor for better thermal performance.

7. SEALING OVEN DOOR
   Door seals cooking chamber off from the vent; excellent heat retention.

8. MONOBLOCK VENT
   Integral vent for excellent draw, easy installation and outstanding durability.

9. STAINLESS STEEL CHIMNEY
   5 x 12” stainless steel chimney, anchor plate, and rain cap; no extra expense or extra shopping. Optional UL103HT ventilation, or clay chimney pipe.

10. PLUS
    High temperature, waterproof refractory mortar; no extra shopping or shipping costs.

# GIARDINO SERIES

**Modular Refractory Pizza Oven Kits**

**A Custom Wood-Fired Oven Made Easy**

## Giardino Series WHICH SIZE?

### Giardino60

Our smallest wood oven, the Giardino can bake one pizza at a time. It can also bake eight loaves of bread, or two small roasting pans. If you are looking for the fun of authentic wood-fired cooking, but you have limited space and budget, the Giardino60 is for you. There is nothing else like it.

- 24” round cooking surface
- 6” deep oven landing for staging and warming food
- 1 pizzas (10”)
- 8 loaves of bread (1 lb.)
- One chicken
- 2 smaller roasting pans

### Giardino70

The Giardino70 offers 36% more cooking space than the Giardino60—which is a lot of cooking space in a smaller oven. The Giardino70 has room for two personal pizzas at a time, and it simply holds more of everything, including bread, roasts and baking roasting pans.

- 28” round cooking surface
- 6” deep oven landing for staging and warming food
- 2 pizzas (10”)
- 12 loaves of bread (1 lb.)
- One large chicken
- 2 roasting pans
