The Forno Bravo Vesuvio Series is a family of Naples–style ovens designed for backyard baking. These beautiful and innovative ovens feature a traditional center vent system where hot air exhausted from the oven is routed back over the oven dome and then vented through a stainless steel chimney pipe in the center of the dome. This ventilation method evenly and efficiently heats the oven dome and maintains the high temperatures required for baking Pizza Napoletana.

Vesuvio ovens feature a beautifully tiled enclosure for outdoor use and optional decorative powder coated steel stand. These hand crafted ovens are available in four sizes: 32”, 36”, 40” and 44” round cooking floor, each with a minimum 6” oven landing. The Vesuvio oven comes with Steel Door and Thermometer. Optional accessories include a pizza placing peel, round turning peel, oven brush, oven rake, oven shovel and infrared thermometer. Having an authentic Naples–Style Wood Fired Oven has never been so easy.
The Vesuvio is our most popular artistic fully assembled residential pizza oven. They offer the optimal balance between oven size and mass, and heat up time and efficiency. Their center vent construction provides the best heat retention and distribution available from a fully assembled oven. The Vesuvio ovens are perfect for weekend entertaining and weekday cooking for your family.

The Vesuvio ovens feature four unique technologies:

- The Vesuvio oven 2” dome is produced using a proprietary 142pcf density, 8,230 psi strength refractory material and a two-sided, vibrated mold casting process — the same material and process we use for our commercial ovens. It is a remarkably hard and durable material that is superior to old-fashioned clay ovens.

- The Vesuvio oven floor is constructed using 2” commercial-grade (2,700psi compressed and 2,650°F kiln-fired) baking tiles with Cordierite —

- Each Vesuvio oven is constructed with 3” of high-tech ceramic insulation and 2” of ceramic floor insulation — eliminating the need for old-fashioned and inefficient vermiculite or Perlite.

- The Vesuvio center vent system traps hot air exhausted from the oven and routes it back over the oven dome and then vents it through a stainless steel chimney pipe in the center of the dome providing the best fuel efficiency and heat retention available.

- The Vesuvio stand option provides easy installation. Simply lower the oven with a fork truck onto the Metal Stand and you are ready to cure and fire your oven.

The Vesuvio No Stand ovens can be installed on a site-built concrete block stand. The Vesuvio Series ovens are ETL and ANSI NSF-4 tested for indoor installation. Oven tools are available as options.

Vesuvio Series

Fully Assembled, Hand Tiled Pizza Ovens
Naples-style Wood-Fired Ovens for the Home

**Vesuvio Series ADVANTAGES**

1. CENTER VENT DESIGN
   Naples-style vent drawing heat across the dome for distributing heat and improving performance.

2. DOME INSULATION
   3” ceramic dome insulation for outstanding heat retention.

3. REFRACTORY CASTING
   2” thick, 142 pcf, 8,230 psi strength, two-side vibrated form refractory dome for faster heat up and excellent durability.

4. COOKING FLOOR
   Compressed (2,700psi), kiln fired (2,650°F) 2” floor tiles have fewer seams, more durable, and bake perfect Pizza Napoletana.

5. FLOOR INSULATION
   2” ceramic floor insulation for excellent heat retention.

6. ENCLOSED COOKING FLOOR
   The dome wraps around the floor for better thermal performance.

7. SEALING OVEN DOOR
   Door seals cooking chamber off from the vent; excellent heat retention.

8. STAINLESS STEEL CHIMNEY
   6” x 24” or 8” x 24” stainless steel chimney, anchor plate, and rain cap; no extra expense. Optional UL103HT upgrade for indoor installation.

9. GLASS TILE WATERPROOF
   Hand tiled with <0.01% moisture absorption and >100 lb Breaking Strength this oven is very durable and sealed for any climate. Oven ships with spare tiles.

10. PLUS
    Option for custom two tone color schemes to match your decor. Additional charge may apply.
Vesuvio Series

Vesuvio Series WHICH SIZE?

Vesuvio 80

Our smallest Vesuvio oven, the Vesuvio 80 delivers fast heat up times, and can cook two medium, or one large pizza a time. It is the right oven for tight spaces.

- 32” round cooking surface
- 8” deep oven landing for staging and warming food
- 1–2 pizzas (10”)
- 12 loaves of bread (1 lb.)
- One large chicken
- 2 roasting pans

Vesuvio 100

Popular with the cooking enthusiast, the Vesuvio 100 provides more space for multiple roasting pans, along with room for more pizza and bread.

- 40” round cooking surface
- 8” deep oven landing for staging and warming food
- 3–4 pizzas (10”)
- 22 loaves of bread (1 lb.)
- One large turkey
- 3 roasting pans

Vesuvio 90

The Vesuvio 90 is our most popular oven size, cooking three personal pizzas at a time, as well as roasts and vegetables.

- 36” round cooking surface
- 8” deep oven landing for staging and warming food
- 2–3 pizzas (10”)
- 17 loaves of bread (1 lb.)
- One small turkey (or one large chicken)
- 2 roasting pans

Vesuvio 110

Perfect for the serious chef, or neighborhood host, the Vesuvio 110 can be the center of attention for larger parties and family events.

- 44” round cooking surface
- 8” deep oven landing for staging and warming food
- 4–5 pizzas (10”)
- 26 loaves of bread (1 lb.)
- One large turkey
- 4 roasting pans

Fully Assembled, Hand Tiled Pizza Ovens
Naples-style Wood-Fired Ovens for the Home

Vesuvio 80 DIMENSIONS

Gas Requirements:
- Must specify fuel type at time of order
- Natural Gas: 3"-8" WC, 30,000 BTU
- Propane (LP): 10"-12" WC, 51,000 BTU
- 1 AA Battery
- Refer to install manual for proper airflow

Clearance to combustibles:
Allow 1" clearance all the way around side walls;
14" above completed dome assembly;
Allow 36" from front of oven landing to combustibles;
30" from left and right of oven mouth.
Non combustible concrete hearth.

Specifications:
Wood, liquid gas or propane fuel for outdoos
Indoor install for wood only.
Check local codes for venting requirements.
Crate ships 59"W x 63"D x 84"H, Oven weight: 2300 lbs.

WARNING:
READ ALL INSTRUCTIONS IN INSTALLATION MANUAL BEFORE
INSTALLING AND USING APPLIANCE. FAILURE TO FOLLOW
INSTRUCTIONS MAY RESULT IN PROPERTY DAMAGE,
BODILY INJURY OR EVEN DEATH.

Vesuvio 90 DIMENSIONS

Front View

- 4" Dome insulation
- 2" Dome wall
- 2" Firebrick floor tiles
- 2" Floor insulation
- 36 1/4" Base
- 40 1/2" Cooking surface
- 10" Diameter

6" Stainless steel stove pipe and rain cap comes standard.
Upgrade to UL 103HT chimney for indoor installation (wood only)

Side Elevation

- 36 1/4" Base
- 38 1/4" Ash guard
- 90 1/2" Flue transition height
- Remote thermometer dial
- 6" Gas inlet
- 34 1/2" Burner
- 15" Burner unit
- 56 1/2" Base
- 15" Oven stand
- 14" Tile enclosure (Custom options are available)

Gas Requirements:
- Must specify fuel type at time of order
- Natural Gas: 5" - 10" WC; 38,000 BTU
- Propane (LP): 10" - 12" WC; 51,000 BTU
- 1 AA Battery
- Refer to install manual for proper airflow

Clearance to combustibles:
- Allow 1" clearance all the way around side walls;
- 14" above completed dome assembly;
- Allow 36" from front of oven landing to combustibles;
- 30" from left and right of oven mouth. Non combustible concrete hearth.

Specifications:
- Wood, liquid gas or propane fuel for outdoors;
- Indoor install for wood only.
- Check local codes for venting requirements
- Crate ships 83" W x 67" D x 84" H, Oven weight: 3625 lbs.

WARNING:
READ ALL INSTRUCTIONS IN INSTALLATION MANUAL BEFORE INSTALLING AND USING APPLIANCE. FAILURE TO FOLLOW INSTRUCTIONS MAY RESULT IN PROPERTY DAMAGE, BODILY INJURY OR EVEN DEATH.
